

Weather Forecasts for your Expedition

Service

We assist expeditions all over the world in remote lands from the poles to the equator and especially in the Himalaya and Karakorum region with our customer tailored weather forecasts.

Whether by e-mail, telephone sms or fax – we are always at your service as weather experts. Expedition organizers have valued our service for many years.

Our meteorologists have a long term experience in giving precise answers to mountaineers' questions concerning the upcoming weather.

We analyze complex weather information from a range of forecast models and satellite pictures and convert it into an understandable recommendation for your expedition.

We also run our own forecast model – just for you. Our daily dialog with you will give you vital information for your expedition.

Mount Everest, Kangchenjunga, Lhotse, Pumori, Cho Oyu, Shisha Pangma, Annapurna I-IV, Dhaulagiri, K2 / Godwin Austen, Gasherbrum I & II, Broad Peak, Muztagh Ata, Pik Lenin, Mount McKinley, Nevado Sajama, Aconcagua, Cerro Torre, Demawand, Elbrus, Ararat, East Greenland, Kangerdlugssuaq Fjord, Antarctica, winter expeditions to the North Pole and many more.

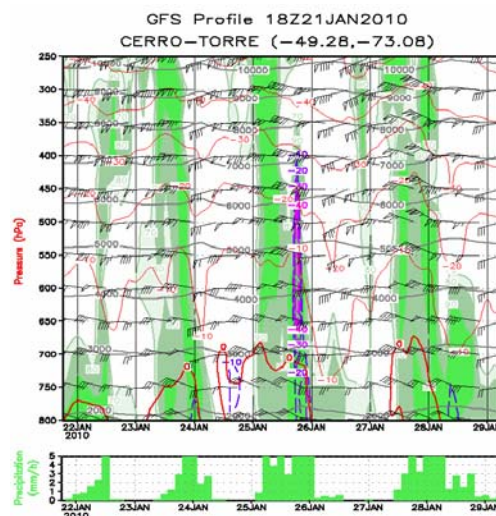

Flatrate Arrangement

Ask for our services for High Mountains and other challenging expeditions on all continents!

Our arrangement with you is simple and calculable. We offer weather forecasting for the whole duration of one expedition and provide you with specific information by e-mail, telephone sms or fax whenever you require it.

The costs are classified by destination according to our experience on how long an expedition lasts and how many forecasts are needed.

The flatrate price is payable in advance for customers using our services for the first time.

Flatrate classification scheme

Currently, we offer the following flatrate arrangements:

- | | |
|---|--------|
| A) Mount Everest, K2 | 2000 € |
| B) Summits with an altitude of 8000 m and more
(e.g. Cho Oyu, Shisha Pangma, Dhaulagiri, Kangchenjunga) | 850 € |
| C) Summits with an altitude of 6000 m to roughly 8000 m
(e.g. Muztagh Ata, Gasherbrum, Ama Dablam, Broad Peak) | 600 € |

Prices may change, please ask for a current price list.

If you have any special demands regarding service and pricing, don't hesitate to contact us.
